3 INDEX OF AUTHORS	24

MODERN PLASTICS

A McGraw-Hill Publication

1301 Avenue of the Americas, New York, N.Y. 10019

GENERAL INDEX OF TITLES

NOTE: For convenience in reference, titles of articles published in the Plastics Engineering and Technical Sections are repeated and grouped separately at the end of this General Index of Titles (p. 5).

A	Month	Page
ABS case protects cordless wet-or-dry shaver	June	97
ABS makes bid for building construction market	August	106
ABS polyhedron phone booth	September	52
ABS polymer, reinforced nylon for auto use	January	60
A boost from the car business (Editorial)	October	81
Acetal and nylon team up in improved control device	July	105
A commitment to plastics (Editorial)	March	79
Acrylic pool steals show	September	56
Acrylics continue big in cast sheet, but new developments are popping	January	109
Advance brake warning system	February	56
Advances in fluorocarbons	September	161
Agriplast — the new way for the farmer	July	76
All-PVC cooling tower	April	64
Aluminum hydrate filler for polyester systems	October	154
Another new frontier (Editorial)	September	85
Antioxidants	September	101
Antistatic agents	September	109
A 104-oz. injection molded PVC part? Why not	June	86
Appliances — where custom and captive processors join	May	193
Austria: Trade active, profits squeezed	April	117
Automated molding of drapery hardware	May	160
B		
Backup lowers cost of forming tool	October	102
Barrels are blow molded from PE	August	56
Belgium: Boom coming up	April	113
Big market for blown PS bottles? Maybe	April	92
Big savings with RP-foam forming tools	July	84
Big things are happening in vinyl film	Jun.72, Aug.	94
Blown double-bottle has captive closure	October	89
Boat made from ABS, polyurethane foam	May	66
Breskin, Charles A. retires	December	98
Brighteners	September	105
Building construction — plastics' most explosive growth market	May	180
Butyrate panels provide demountable facade for traveling exhibit	May	233
C		
Can RPT meet your product requirements?	March	102
Cathedral windows use reinforced cellulose	September	52
Cellulosics beautify juicer	February	93
Cellulosics up again	January	107
Challenges for machinery and processing	May	149
Chemicals and additives for plastics	September	86
Chinese stressing plastics' use in agriculture	September	54
Chlorinated polyether	January	125
Chlorostyrene-diluted polyesters for reinforced plastics	November	154
Cistern valve uses nylon, acetal	October	54
Coating with thermoplastic urethane films	December	132
Cold processing of crystalline polymers	April	154
Colorants	September	106
Composite baseboard molding	June	56
Composite structures — they start where metals leave off	May	221
Continuous foam-core panel production cuts cost	September	112

D	Month	Page
Declining prices bring a new look to the plastics industry	May	141
Decorating thermoplastics	December	52
Design stimulus promotes acrylic for home appliances	April	142
Development of RP parts for aircraft	January	138
Dimensional stability of acrylic resins	July	107
Doing the tough jobs in space	October	90
Domed sports arena roof from RP	January	58
Dutch "wooden shoes" molded of EVA	November	58
E		
Earth loading characteristics of glass/epoxy pressurized pipe	July	125
East Germany boosts PE output	September	56
Effect of extender resins on settling in plastisols	September	154
Effect of UV on insulation resistance of acetal plastics	December	139
Electron radiation curing of monomer/polyester mixtures	June	111
Electronics — demands are getting tougher	May	188
Electroplating — new dimensions for plastics	December	86
Epoxy-acrylic resin for reinforced plastics	October	148
Epoxy . . . capacity is up, so is consumption	January	116
Ethylene copolymer-foil laminate with unusual adhesive properties	December	117
Europlastique — 66	July	92
EVA for beer hose	May	66
Evaluation of polybenzimidazol glass-fabric laminates	January	149
Extending pot life of urethane castings	March	153
F		
Fatigue characteristics of an RP sandwich structure	June	120
Filled epoxy resin strengthens stress points of honeycomb panel	April	144
Filled nylon solves tricky problem — at a saving	October	111
Film cartridges by the millions	May	167
Film package without film	June	80
Fire-resistant RP lifeboat tested	September	52
Flame retardants	September	98
Flat RP/PP sheets make tall round silos	December	100
Fluidized bed coating — Part 1	August	111
Fluorocarbon seal design	September	174
Fluorocarbons in electrical equipment	September	183
Fluorocarbons in reciprocating compressors	September	172
Fluoroplastic on rubber for better seal	June	93
Fluoroplastics . . . space-age dividend for consumers	January	122
Foam-filled RP used for yacht moorings	November	56
Foam sandwich panels for roof structures	April	62
Foamed polystyrene patent dispute	October	52
Folklore of the industry (Editorial)	August	81
Formed ABS scores again in car body	July	97
Formulating plasticizer blends by master charts	January	145
France: Catching up fast	April	102
Front-end drive extruder	March	115
Fundamentals of friction, PV, and wear of fluorocarbon resins	September	161
Furniture, an industry custom made for custom molders	May	174

G	Month	Page
Geography of the plastics industry	May	207
Germany: Growth without integration.	April	105
Getting more profit from vacuum metallizing.	November	130
Good-bye cable maintenance	June	89
Great Britain: Expansion to meet markets.	April	108
Guide to the 11th National Plastics Exposition	May	123
H		
Hanover Fair.	July	95
Hard, soft, and in-between (Editorial).	June	71
Have you looked at premix lately?	November	99
Heat stabilizers	September	96
Heavy duty sheeting	June	58
Help wanted! (Editorial)	February	71
Here's a new approach to furniture drawers — Extrusion	April	98
High density PE sheet fabricated like paperboard to cut costs	October	115
High density polyethylene toilet	September	56
Honeycombed fluoroplastic basket dips semiconductor wafers	July	102
Hoopla or homologs (Editorial)	July	75
Housewares — where the pace is quick and up-grading is today's motto	May	199
How an "impossible" radiation problem was solved	November	115
How olefin film and fiber aid conservation	December	112
How to determine film yield of resin, cost per 1000 sq. inches	May	230
How to extrude big PVC pipe	September	140
How to handle a large-size preform efficiently	March	113
How to machine polycarbonate resins.	December	125
How to measure internal stress in resin embeddings	November	123
How to select radiant heaters	October	122
How to work with PE dispersions.	April	147
Hydraulic injection screw drives	May	237
I		
Ice-free roads — with nylon/epoxy	November	112
Importance of voids in the filament wound structure	December	145
Improved skis pioneer new laminate construction	December	102
Influence of environment on glass roving and laminate properties	January	154
Injection molding telephone components	May	164
Instant heliports consist of RP applied directly to ground surface	May	229
Integrating a foam line into over-all production	April	96
Is this the final word in vinyl windows?	November	102
Italy: Mergers in the wind	April	111
It's the big time now for asbestos-filled polypropylene	August	102
L		
Laminated film pouch holds coffee	July	62
Laminated vinyl fabrics	August	58
Lid-flipping PP socket protects electronic modules	January	128
Looking for an unusual wall?	August	101
Low-cost drainer-liner improves olive package	November	120
Low pressure laminates move into veneer markets	August	109
Low-temperature nylon polymerization.	September	54
M		
Machinery makers take a look at their business	May	150
Machinery sales for 1965	March	81
Maintenance-free urethane/RP panels simplify tank insulation	March	108

	Month	Page
Markets for plastics...how they're set up.	May	173
Measure of a man — Editorial	December	85
Melt-away molds drop tooling costs for epoxy parts.	September	126
Methyl methacrylate bearings	November	56
Microtest for PVC-plasticizer compatibility	October	141
Minute meals from polystyrene trays.	October	52
Modular mold base concept simplifies formed sign production	September	121
Modular RP pool offers design versatility	August	105
Molding epoxies ups production efficiency	October	96
Monomer cast nylon outwears steel.	October	112
Move to phenolic for transistor header cuts cost by two-thirds	November	120
N		
National Plastics Exposition	July	88
New cooling system expands capabilities of rotational molding	November	116
New design thinking generates new camera concepts	February	84
New dimensions for rotomolding	April	86
New economics for acrylic sheet	November	92
New ideas from Detroit	October	82
New material: vinyl/propylene	March	92
New method for reclaiming PE sheet.	August	58
New packaging concepts in military survival kit.	June	94
New phenylene oxide resin	June	90
New process for coating polymers	November	60
New process for synthetic fibers	December	50
New thermoplastic resin: Polybutylene	October	94
Nine plastics team up to warm sleepers	January	127
1965 engineering highlights	February	97
Now it's thermoplastic "prepregs"	July	81
Now — thin wall thermoforms from PE.	March	101
Nylon bushing stock and tubing improve conveyor	January	131
Nylon canvas used for ice rink roof.	April	62
Nylon chain	June	56
Nylon closure is positive locking	March	110
Nylon, PP strapping gets strong hold.	September	114
Nylon sole plate lightens track shoes 33 percent	June	94
Nylon...starring in Detroit — and elsewhere	January	106
Nylon used in seed drill	November	60
O		
Organic peroxides	September	102
P		
Packaging — a market that accommodates both the giant and the little guy	May	202
Parylene	January	125
Performance of glass spheres/epoxy syntactic foam	September	144
Permeability of polymers to gases, vapors, and liquids	March	139
Phenolics...still coming on strong.	January	112
Phenoxy	January	123
Phenoxy for swimming pool filter.	March	110
Plant layout — key to quality, efficiency, productivity...and profits	May	160
Plastic-coated textile that breathes.	November	58
Plastic design award given	February	54
Plasticizers	September	88
Plastics at the lighting show	September	248
Plastics at the Packaging Show	June	168
Plastics in Europe (Austria, Belgium, France, Germany, Great Britain, Italy, Sweden)	April	101
Plastics in Japan — an industry in transition	January	164
Plastics on the move	July	87

	Month	Page
Plastics production and sales in 1964	October	105
Plastisol coating costs more, yet saves fabricator money	September	121
Pocket guide, production and sales	January	186
Polish plastics show increase	October	54
Polyacetals . . . the field is growing	January	110
Polycarbonate saves turbine motor design	November	109
Polycarbonate . . . strong in new markets	January	111
Polyester panels provide temporary shelter	March	60
Polyester prepreg molding can be automated	March	98
Polyester . . . resurgence on many fronts	January	118
PE aids rapid transit	February	87
Polyethylene attache case	June	58
PE bag for milk	April	100
PE-based laminate packaging system	May	66
Polyethylene beverage cases	March	62
Polyethylene billboard	February	56
PE bottle part of cooling system	May	68
Polyethylene door stopper and holder	June	58
Polyethylene film for grain storage	July	62
Polyethylene humidifier tank	February	95
PE linings for shipping drums	February	54
Polyethylene materials handling pallets	July	62
PE plugs replace machined steel forgings	July	101
Polyethylene wrapping material from Japan	October	52
PETE spiral binder for wiring	July	62
Polyimides	January	123
Polyphenylene oxide	January	124
PP for rice sacks	December	52
PP pipe drain system	March	107
Polypropylene pipe system	March	60
PP stable fiber rope	July	62
Polypropylene . . . up 40% over-all, 60% in injection molding	January	104
PP used for valve in corrosion control	August	56
Polystyrene aids in long-life lamp	September	54
Polystyrene and copolymers . . . new growth, new markets, new concepts	January	100
Polystyrene battery case	January	58
Polystyrene battery case molded in two parts	October	115
Polystyrene foam joins polystyrene sheet in lighting field	September	126
Polystyrene foam package protects in transit, in use too	May	233
Polystyrene - sales high, prices firm, expansion coming . . . formulations galore	January	90
Polystyrene syringe	March	60
Polysulfone	January	124
Polysulfone proves its mettle in electronics use	March	107
Polysulfone switch withstands soldering temperatures	August	106
Polyurethane foams for shock mitigation systems	August	140
Portable hospital room from PVC sheeting	December	50
Prediction of long-term effects of humidity on cast epoxies	April	163
Processability of prepreg material: Part 1	September	129
Processability of prepreg material: Part 2	October	132
Propylene copolymer brings high heat resistance to molded drawers	December	117
Public transportation - a growing market	May	196
PVC bottles with sealing rings on rim	May	68
PVC calendaring plant on stream	November	56
PVC foam as structural component	December	50
PVC illuminated traffic sign	April	62
PVC paper in development stage	November	58
Q		
Quality standards for rigid PVC for exterior construction	May	257
R		
Reinforced plastics antenna	February	94

	Month	Page
RP car body produced in Japan	February	54
RP case in nuclear fusion test	September	54
RP ceiling domes in pavilion	August	56
RP chutes for fire escape system	January	58
RP components permit unusual features in mower, cut costs too	September	116
RP covers for PBX units	July	102
RP emergency water supply tanks	October	54
RP kiosks for service stations	March	62
RP "missile" saves weight, waste in training Polaris crew	April	141
RP molded steam bath	March	60
RP panels solve facing problem	December	50
Reinforced plastics panels used for roof	May	66
RP roof for college training center	November	58
RP tanks can be stacked	July	64
RP wagons for Africa	May	68
Redesigning in nylon . . . by stages	April	94
Redesigning motor construction with cast epoxy	September	124
Relay actuator punched from polyimide sheet - fast	December	118
Report on the Bucharest meeting of ISO/TC 61	November	167
Rigid PVC mural	February	54
S		
Shower cabinet is made from ABS, acrylic	June	56
Silane coupling agents for reinforced thermoplastics	July	133
Sixteen tons of automotive plastics per day	May	170
SPI reinforced plastics meeting	February	151
Soluble undercoating eases removal of foamed-in-place undercoating	February	95
Speeding up urethane foam production lines	November	105
Stabilizer effects in vinyl-asbestos floor tiles	November	143
Stackable PE traffic cone has ballast compartment	December	118
Stripping epoxy resin systems	November	135
Styrene butadiene - a new elastomer	June	77
Styrene car battery marketed	September	52
Sweden expands petrochemical complex	November	58
Sweden: Small country, big plans	April	115
Switch to nylon brings new terminal block design	December	121
Synthetic elastomers production in 1962, 1963, and 1964	October	106
Synthetic resin imports in 1963 and 1964	October	106
T		
Tank truck made of glass-reinforced polyester	June	56
Temperature effect in coupling thermoplastics to silane-treated glass	August	131
Templets of industrial laminates for machine tool programming	June	93
Test variables in evaluating chemical resistance of polyesters	April	172
TFE bearing pads replace steel	November	109
The amazing design variation in musical instrument cases	December	109
The automotive industry - where plastics' use is moving to an all-time high	May	185
The boom in machinery	March	80
The case for screen pack changers	August	125
The changed look in structural fabrication	August	82
The day of RP mass production has arrived	February	72
The final 1964 tally - what it means	October	104
The independents take a look at the future of research	May	216
The medical markets - challenges and opportunities	November	94
The new prepreps . . . and what they mean	December	104
The outlook for materials	May	132
The plastics distributor . . . and how he operates	May	213

	Month	Page
The plastics industry in the U.S. economy - a 10-year look ahead	May	144
The plastics industry - where to now? . . .	May	131
The plastics market in packaging	April	91
The research frontier	May	215
The shifting, volatile, and exciting plastics industry	May	116
The synthetics age	August	98
The U.S. Plastics industry	May	208
The year 1965 in review	February	115
Thermoformed ABS case for outboard motor	January	128
Thermodynamic properties of polymers - Parts 1 and 2	March	119, 121
Part 3	April	160
Part 4	May	245
Part 5	June	103
Part 6	July	119
Thermoforming goes into some tough markets	September	110
This is really putting the PP hinge to work. Three-bedroom house for \$10,000	February	79
Three-core PE cables	October	99
3-D printing uses PVC sheet	August	56
Time-modified moduli for polysulfones	November	60
Tips on tooling with polysulfone resin	June	99
To break through polyethylene's limitations: cross-link	October	117
To market, to market... (Editorial)	November	107
Top load performance of blown containers	May	115
Toward a fire retardant ABS	March	124
Toys - competitive, changeable	June	85
Tubing from sheet	May	205
TV grid caps from TFE resin	October	107
22nd SPE technical conference	April	64
Two-part ABS housing joined by metal stitching	February	156
Two-part polyethylene sled	October	112
	October	52

U

Ultrasonics imbed metal inserts	June	97
---	------	----

	Month	Page
Underground petroleum tank tested	November	56
Urea, melamine... new routes	January	121
Urethane core stiffens, quiets steel doors	July	105
Urethane foam quiets noisy gas pipes	August	109
Urethane... foam takes off	January	115
Unsinkable twin hull	March	95
Use of TFE and its derivatives in anti-friction bearing components	September	178
Utility requirements for injection machines	March	131
UV stabilizers	September	94

V

Vacuum transfer encapsulation	March	128
Variables in fluidized bed coating	January	133
Vinyl buoys float semi-sunken logs	July	101
Vinyl sheeting for low-cost ceiling	July	86
Vinyls boom... move in many directions	January	95
Void-free epoxy floats for off-shore oil exploration	January	131

W

Waterproof PVC roof shingles	September	52
Welcome to the National Plastics Exposition	May	122
What a year this has been!	January	86
What cast urethanes can do	December	114
What meaningful testing means (Editorial)	November	85
What's behind the big push in ABS?	November	86
What's the latest on plastic milk bottles?	February	88
Where are the plastics material suppliers headed in their research efforts?	May	224
Which way for the fuel tank?	June	82
Whether the custom molder? (Editorial)	April	85
Why plastics for coffee vander?	August	91
Woven polyethylene sacks	January	58

X-Y

XT polymer - new material of design	February	82
Yellowness index of exposed plastics	May	271

ENGINEERING AND TECHNICAL SECTIONS

PLASTICS ENGINEERING

Coating with thermoplastic urethane films	December	132
Cold processing of crystalline polymers	April	154
Development of RP parts for aircraft	January	138
Dimensional stability of acrylic resins	July	107
Effect of extender resins on settling in plastisols	September	154
Fluidized bed coating - Part 1	August	111
Formulating plasticizer blends by master charts	January	145
Front-end drive extruder	March	115
Getting more profit from vacuum metallizing	November	130
How to extrude big PVC pipe	September	140
How to machine polycarbonate resins	December	125
How to measure internal stress in resin embeddings	November	123
How to select radiant heaters	October	122
How to work with PE dispersions	April	147
Hydraulic injection screw drives	May	237
1965 engineering highlights	February	97
Performance of glass spheres/epoxy syntactic foam	September	144
Processability of prepreg material: Part 1	September	129
Processability of prepreg material: Part 2	October	132
Stripping epoxy resin systems	November	135
The case for screen pack changers	August	125
Thermodynamic properties of polymers - Parts 1 and 2	March	119, 121

PLASTICS ENGINEERING (Continued)

Part 3	April	160
Part 4	May	257
Part 5	June	103
Part 6	July	119
Time-modified moduli for polysulfones	June	99
Tips on tooling for polysulfone resins	October	117
Top load performance of blown containers	March	124
Utility requirements for injection machines	March	131
Vacuum transfer encapsulation	March	128
Variables in fluidized bed coating	January	133

TECHNICAL SECTION

Advances in fluorocarbons	September	161
Aluminum hydrate filler for polyester systems	October	154
Chlorostyrene-diluted polyesters for reinforced plastics	November	154
Earth loading characteristics of glass/epoxy pressurized pipe	July	125
Effect of UV on insulation resistance of acetal plastics	December	139
Electron radiation curing of monomer/polyester mixtures	June	111
Epoxy-acrylic resin for reinforced plastics	October	148
Evaluation of polybenzimidazole glass-fabric laminates	January	149

	Month	Page
TECHNICAL SECTION (Continued)		
Extending pot life of urethane castings . . .	March	153
Fatigue characteristics of an RP sandwich structure	June	120
Fluorocarbons in electrical equipment . . .	September	183
Fluorocarbons in reciprocating compressors	September	172
Fluorocarbon seal design	September	174
Fundamentals of friction, PV, and wear of fluorocarbon resins	September	161
Importance of voids in the filament wound structure	December	145
Influence of environment on glass roving and laminate properties	January	154
Microtest for PVC-plasticizer compatibility	October	141
Permeability of polymers to gases, vapors, and liquids	March	139
Polyurethane foams for shock mitigation systems	August	140

	Month	Page
TECHNICAL SECTION (Continued)		
Prediction of long-term effects of humidity on cast epoxies.	April	163
Quality standards for rigid PVC for exterior construction	May	257
Report on the Bucharest meeting of ISO/TC 61.	November	167
Silane coupling agents for reinforced thermoplastics	July	133
Stabilizer effects in vinyl-asbestos floor tiles	November	143
Temperature effects in coupling thermoplastics to silane-treated glass . .	August	131
Test variables in evaluating chemical resistance of polyesters	April	172
The year 1965 in review	February	115
Use of TFE and its derivatives in anti-friction bearing components	September	178
Yellowness index of exposed plastics	May	271

INDIVIDUAL SUBJECTS

(ab) = Abstract; (ma) = Machinery and Equipment; (pl) = Plastiscope

IMPORTANT: Annual reviews of materials, processing, and applications are not completely cross-indexed here because of their survey nature. "Patents," and "Literature" are not indexed. Also omitted from this index are those Plastiscope

items devoted to company news, personnel news, and similar items of timely news value, but not considered as reference material.

A	Month	Page
ABS - see Acrylonitrile-butadiene-styrene		
ACETAL		
Annual report on	January	110
Automotive uses of	October	85
Camera use of	February	84
Cold molding of	April	154
Consumption of, 1965-70	May	135
Control unit parts, molded	July	105
Fatigue of, stress (ab)	November	62
Insulation, ultraviolet effect on	December	139
Production and sales, 1965-66	January	86
Reinforced, properties of	March	105
ACRYLONITRILE-BUTADIENE-STYRENE (ABS)		
Annual report on	January	101
Auto use of, German	January	60
Automotive parts, molding GM	May	170
Automotive uses of	October	84
Boats, British	May	66
Camera use of	February	84
Car body, sheet-formed	July	97
Consumption, 1965-70	May	135
Fabrication, structural sheet	August	82
Facia panels, thermoformed	August	106
Formulations of, new	November	86
Heater duct, stitched automotive	October	112
Outboard motor case	January	128
Musical instrument cases	December	109
Phone booth, reinforced Belgian	September	52
Pipe, DWV (pl)	June	182
Plating	December	86
Properties of	November	86
Self-extinguishing	June	85
Shaver case	June	97
Shower cabinet, British	June	56
Skis, new laminate for	December	102
Uses for, new	November	86
Vending machine parts, coffee	August	91
ADDITIVES - see Chemicals and Additives		
ADHESIVES		
Ethylene copolymer	December	117
Plastics use in, 1965	April	91
AGRICULTURE and GARDENING		
Grain tank liner, Canadian PE film	July	62
Lawn mower, RP components for	September	116
Mulch, plastics film as	July	79
Plastics for, Chinese	September	54
Plastics on the farm	July	76
Seed drill, nylon in Finnish	November	60
Silage covers	July	80
Silo, round RP	December	100
AIRCRAFT - see Aviation		
ALKYDS		
Production and sales, 1964	October	104
AMINOS - see Melamine, Urea		
ANNUAL REVIEWS		
Engineering developments	February	97
Literature	Feb.	97, 115
Materials	Jan. 89, Feb	115
Plastics industry	January	86
Production and sales	January	86

	Month	Page
ANTISTATIC		
Agents, review of	September	109
Static eliminator, 3M radioactive (ma)	December	62
APPLIANCES		
ABS parts in	November	86
Acrylics in, new uses of	April	142
Markets for plastics in	May	193
Plastics used in (ab)	September	58
Plated plastics for	December	89
Styrene in	January	214
ARCHITECTURE - see Building		
ASBESTOS		
Floor tiles, stabilizers in vinyl-	November	143
Pipe, asbestos-reinforced phenolic (ab)	October	56
Polypropylene, uses of filled	August	102
ATOMIC POWER		
System, RP cases for	September	54
ATOMIC RADIATION - see Radiation		
AUTOMOTIVE APPLICATIONS		
ABS car parts	November	86
ABS, German use of	January	60
ABS uses in	January	102
Batteries, styrene case for	September	52
Body, Japanese RP	February	54
Body, RP	October	163
Body, sheet-formed ABS	July	97
Brake warning, British advance	February	56
Cars boost plastics (Editorial)	October	81
Components molding, GM	May	170
Cooling system, PE bottle in British	May	68
Fender liners, polyolefin	October	169
Fuel tanks, plastic	June	82
Fuel tanks, polyolefin	October	169
Heater duct, stitched ABS	October	112
Nylon uses in	January	106
Plastics in 1966 models	October	82
Plastics industry stake in	May	185
Plated plastics for	December	89
Polypropylene uses in	January	105
Reinforced plastics uses in	January	120
SAE show, plastics at (pl)	April	230
Speed control unit, acetal and nylon in	July	105
Styrene in	January	214
Tank truck, British RP	June	56
Trends in plastics uses	October	82
Turn signal redesigned in nylon	April	94

POLYAMIDES - see Nylon

POLYBENZIMIDAZOLE		
Laminates, evaluation of glass-	January	149

POLYBUTYLENE		
Film	October	94
Properties of	October	94
Tubing, flat irrigation.	July	80

POLYCARBONATE (PC)		
Annual report on	January	111
Automotive uses of	October	88
Camera use of	February	84
Globes, street lighting	Sept.248,Mar.224	
Machining stock shapes	December	125
Medical applications of	November	94
Production and sales, 1965-66	January	86
Reinforced preregs.	July	81
Reinforced, properties of	March	105
Turbine motor parts, water.	November	119
Vending machine parts, coffee	August	91

POLYESTER FILM		
Space applications of	October	90

POLYESTERS		
Annual report on	January	118
Camera use of	February	84
Cast panels, decorative	August	101
Chemical resistance of, evaluating	April	172
Chlorostyrene-diluted, for RP	November	154
Consumption of, 1965-70	May	135
Curing by radiation	June	111
Filler, aluminum hydrate	October	154
Helipart, instant RP	May	229
Isophthalic, uses of (pl)	January	47
Literature, review of	February	121
Monomers used with (ab)	July	64
Packaging use of, 1965	April	91
Prepreg molding, automated	March	98
Production and sales, 1964	October	104
Production and sales, 1965-66	January	86
Tubing welded from sheet	October	107
Unsaturated, properties of (ab)	July	66

POLYETHYLENE (PE)		
Annual report on	January	90
Auto cooling system, bottle in British	May	68
Automotive uses of	October	88
Bags, German woven	January	58
Barrels, British blow molded	August	56
Beverage cases, Italian	March	62
Billboard, Argentine mosaic	February	56
Bomb plugs replace steel	July	101
Bottle, new dispensing	October	89
Bottles, report on milk	February	88
Bridge cables, protecting	June	89
Cables, British three-core	August	56

POLYETHYLENE (PE) (Continued)

Coffee pouch, film in British	July	62
Consumption of, 1965-70	May	135
Cross-linked, economies of	November	107
Cross-linking, chemical and radiation	November	107
Dispersions, how to work with	April	147
Drum lining, Belgian	February	54
Fabrication, structural sheet	August	82
Film consumption, LD - 1965	January	92
Film, production of tubular (ab)	October	56
Frictional characteristics of (ab)	July	66
Fuel tanks, automotive	June	82
Germany, East, boosts output	September	56
Grain tank liner, Canadian film	July	62
Growth abroad (pl)	December	43
High density, status of	January	90
Japanese exports, growing (pl)	December	45
Lantern, post-top	September	250
Low density, status of	January	199
Markets for HD, new	January	90
Markets for LD, new	January	200
Medical applications of	November	94
Milk bag, Dutch	April	100
Moldings, large (ab)	January	60
Netting fence, beach erosion control	December	112
Oil cans, tests of (pl)	November	49
Olive package, basket for	November	120
Packaging laminate, French	May	66
Packaging use of, 1965	April	91
Pallets, British materials handling	July	62
Production and sales, 1965-66	January	86
Production of, world (pl)	June	47
Properties of high density, thermodynamic	Mar.121;Jun.108	
Reclaiming sheet, Czech method of	August	58
Reinforced, properties of	March	105
Rotational molding.	April	86
Skid, new laminate for	December	102
Sled, Swiss	October	52
Thermal conductivities of (ab)	December	54
Thermoforming thin wall packages	March	101
Third-rail insulation	February	87
Toilet, chemical	September	56
Tote boxes, sheet fabricated	October	115
Traffic cones, stackable ballasted	December	118
Ultra-high-molecular-weight (pl)	February	198
Vending machine parts, coffee	August	91
Woven strip material, Japanese	October	52

POLYIMIDES		
Annual report on	January	123
Relay part, sheet punched	December	118

POLYMERIZATION		
Nylon, low-temperature.	September	54
Shock-induced, study of (ab)	October	56

POLYMERS		
Amorphous, thermal conductivity of	July	64
Chain entanglement concept (ab)	April	66
Conductive coating for, Russian	November	60
Crystalline, cold processing of	April	154
Fracture, mechanism of (ab)	June	58
Literature, review of	February	133
Membranes for separation processes (ab)	June	60
Organoboron (ab)	August	60
Permeability, mechanism of	March	139
Polybutene-1, survey of (ab)	September	58
Polyelectrolytes, properties and uses of (ab)	February	58
Polymer science, perspectives in (ab)	August	60
Properties of, thermodynamic	March 119, 121 Apr.160; May 245 Jun.103; July 119	
Surface orientation in (ab)	July	64
Synthesizing, progress in (ab)	December	52
Vibration absorbing properties of (ab)	November	60

Month Page

POLYMERS (Continued)

Vinylidene chloride, emulsion polymerization of	June	60
XT polymer, properties and uses of	February	82

POLYOLEFINS - see also Ethylene Copolymers, Polyethylene, Polypropylene
